

What is Moviprep

Each box contains 2 sealed plastic bags where each bag contains sachets A & B (1 dose).

Why do I need to take it?

Taking Moviprep before your appointment will give you a clean bowel.

What to Expect

After you drink Moviprep you will have lots of watery bowel movements, so stay near a toilet because you may need to use it urgently.

Reporting of Side Effects

United Kingdom

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard. By reporting side effects you can help provide more information on the safety of this medicine.

Ireland

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly to the HPRA, via www.hpra.ie or by calling (01) 676 4971. By reporting side effects you can help provide more information on the safety of this medicine.

Importance of Proper Cleansing

A clean bowel will allow for a clear view of its inner lining which is important for both accurate diagnosis and treatment.

Abnormal changes may be tiny, so even the smallest amount of faeces could potentially disguise something important.

If the bowel is not empty and clean enough, the procedure may have to be cancelled and repeated on another occasion at a later date.

How to Prepare Moviprep

Please Repeat This for the Second Dose

Empty 1 dose of sachet A & B into a jug

Add 1 litre of water (not chilled)

Stir until dissolved (clear or slightly hazy)

Every 15-30 minutes drink one glassful (250ml) until finished (over 1-2 hours)

Hints & Tips Patient Advice

It's strongly advised that **you drink an extra 500ml of clear fluids with each dose**. Continue drinking clear fluids to keep yourself hydrated until 2 hours before your procedure and then stop drinking, which may include:

Water

Clear soups (no bits)

Tea & Coffee (without milk)

Soft drinks (cordial - not blackcurrant)

• • • • • Do Not Drink Alcohol • • • • •

Moviprep may be easier to take when:

- Drinking through a straw
- Adding cordial (to alter the flavour, but not blackcurrant as it will stain the bowel)
- It has been chilled once it has been made up

Further advice for patients:

- Using wet wipes after each bowel movement
- Use a barrier cream to prevent a 'sore bottom' for example: petroleum jelly

When to Take Your Moviprep

Same Day Dosing

Dietary Advice

For specialised diets, please refer to your healthcare professional

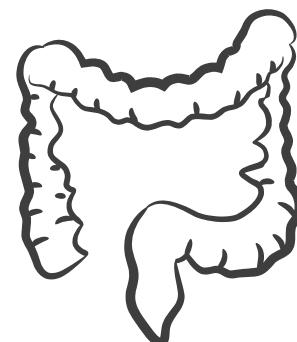

..... Low Fibre Foods Which Are Preferred

 Butter or margarine	 Cheese, eggs or tofu	 Clear soups, tea or coffee	 Ice cream or custard
 Natural plain yoghurt	 White meats, skinless chicken, grilled or poached fish	 Shredless jam or marmalade	 White bread, rice, pasta, boiled or mashed potatoes

..... High Fibre Foods Which Should Be Avoided

 Red meat, sausages or pies	 Nuts, pulses, seeds inc. baked beans	 Wholemeal pasta or brown rice	 Vegetables, fruit or salad
 Cakes or biscuits	 Potato skins, chips or french fries	 Puddings containing fruit or nuts	 Wholemeal, seeded bread or brown bread

What is a Colonoscopy

A colonoscopy is a test that uses a narrow, flexible, telescopic camera called a colonoscope to look at the lining of your large bowel. A colonoscopy can be used to detect irritated and swollen tissue, ulcers, or growths such as polyps. It helps to diagnose or exclude health conditions like Crohn's disease, ulcerative colitis, diverticular disease and bowel cancer.
